

# SECOND CHANCE

# Your Eco-Friendly Rental Platform

Sustainable

User-Friendly

Free

# Empowering People to Live Better and Lighter

In today's fast-paced, consumer-driven world, waste and overproduction are growing concerns. Our project for CSC 648 focuses on combating these ecological challenges by creating SecondChance, a platform for renting second-hand items. This website offers users a chance to rent and lease a variety of pre-owned products, promoting sustainability and reducing waste.

# Key Technologies

OUR TECH STACK IS AS GREEN AND FRIENDLY AS OUR MISSION!

- Django
- Django Rest Framework
- Next.js
- Tailwind CSS
- PostgreSQL
- Docker
- nginx
